

Middle School Parents Focus Group

We would like to invite parents of 6th - 8th grade students to a discussion to learn from you what would be helpful for you as you consider assisting your child in thinking about:

- Careers that would be good matches for skills and interests,
- High school choices, including course options as well as unique programs available on each school site, and
- What training or education would be needed for careers your child is interested in pursuing.

These focus groups are being held around the county this fall to determine:

- 1) what information would be most helpful to develop and share countywide; and
- 2) in what format parents would find the information most useful.
